Dear Mr. Wright:

The Agency has completed its preliminary technical screening of your application pursuant to Section 33(f)(4)(B)(i)(II) of the Federal Insecticide, Fungicide, and Rodenticide (FIFRA) Act, as amended by the Pesticide Registration Improvement Extension Act. The Agency has determined that your application has not passed the preliminary technical screen and therefore is subject to rejection if the application is not corrected.

Specifically, the two repack products listed on the Confidential Statements of Formula (CSFs) do not have the same toxicity profiles. Therefore, to move forward with this application, the registrant must pick one product to repack and withdraw the other CSF. A revised CSF with the current date and signature must be submitted. A revised Formulator's Exemption Statement with the current date and signature must also be submitted to match the CSF.

In order for the review of your product to continue, you will need to correct your application to address the item(s) listed above within 10 business days of the date you received this letter. Corrections must be received by EPA by the 10th business day. EPA recommends sending your complete set of corrections by email to the contact listed below to ensure they are timely received. If studies or confidential information are being submitted by mail, a complete courtesy copy, minus confidential information, received by email by the deadline will be considered timely. If you cannot correct the application [or do not respond] within 10 business days, your application will be rejected.

At this time you could also choose to withdraw your application. If you have any questions, please contact Yasmin Bowers by phone at 703 347-8634, or via email at bowers.yasmin@epa.gov.

Sincerely,

A handwritten signature in dark ink, appearing to read "Marietta Echeverria", is positioned above the typed name.
